Articles on WOL**

Wiley is the world's leading publisher of Neuroscience journals, books, and laboratory protocols. The high quality publications are relevant for researchers, students and professionals working in a range of related fields including brain mapping, autism, neurology, neurotechnology, psychology, anatomy and physiology, and Alzheimer's disease. We have an internationally renowned Neuroscience program - with more than a dozen journals and with many ranked among the top 10, as well as *Current Protocols in Neuroscience* and related disciplines. This makes the Wiley Neuroscience collection an essential resource for anyone working or studying in these areas.

Current Protocols in Neuroscience

Current Protocols has been the leading source of laboratory protocols for over 25 years and comprises nearly 17,000 regularly updated procedures across 18 titles.

Key features include:

Rigorous peer-review selection and editing process

All techniques are indexed in PubMed and Scopus.

Clear, thorough, easy to use

Provides a high level of detail with straightforward, step-by-step presentation.

Accessible and immediate on currentprotocols.com

Instant, easy access to protocol abstracts, material lists and links to content on WOL

Enhanced

Currentprotocols.com features tools, calculators, videos, data sets, and webinars.

190+ Online
Reference Works

Wiley Online Library hosts an extensive collection of journals, books, reference works, databases and WIREs. These online resources provide a seamless solution for libraries and institutions, giving academics, students, researchers and professionals access to multi-disciplinary content on a single platform.

Enhanced User Experience

Anywhere Article offers a seamless reading experience on your digital gadgets. The text in each journal article is formatted to the device screen, providing optimal reading, along with:

- No clutter
- Easy access to key information
- Easy navigation within figures and across figures in the article

Altmetrics allows for tracking of article mentions on social media. The real-time data tracking capability allow authors and readers to:

- Explore online conversations surrounding the content
- Identify papers with the greatest community interest

2015/16 Opt-in Journals

Wiley is committed to publishing new journals to showcase research in new areas of study. To allow librarians and readers to 'test-drive' these new journals, online access is free in the first two to three years under the opt-in model for institutions. A total of 7 journals are available for opt-in in 2015/16. Benefits include:

- Perpetual access to all content published during the opt-in period
- One complimentary print subscription per title for institutions who opt-in
- No obligation to subscribe once the title converts to paid subscription - institutions will be given the option of FTE-banded pricing
- Some new journals are available free to all readers during the initial trial period

To request for free online access to the opt-in journals, please approach your account manager or visit Wiley Online Library to submit an [online application](#)

Journals available for Opt-in:

- [Clinical Liver Disease](#)
- [Acute Medicine & Surgery](#)
- [Economic Anthropology](#)
- [Sonography](#)
- [Advanced Electronic Materials](#)
- [ChemNanoMat](#)
- [Nihon Kyukyu Igakukai Zasshi](#)

**new opt-in titles may be added throughout the year*
